EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with W. Scott Carson on August 29, 2007.

The application has been amended as follows:

In the specification, page 10, line 26, "design" has been changed to --designed--.

In claim 39, line 1, "claim 39" has been changed to --claim 38--.

Claims 1 to 24 have been canceled as being drawn to inventions non-elected without traverse.

The following is an examiner's statement of reasons for allowance:

The claims are deemed allowable because the prior art does not teach or reasonably suggest a circulation system for a body of water comprising a flotation platform, a dish, an impeller, a housing adjacent the impeller, and a plate member extending substantially horizontally about and outwardly of a vertical axis and being vertically spaced from and below the impeller and the housing, the plate member and the housing creating an inlet opening therebetween to the impeller.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
